WALKER STATEMENT ON SENATE REPUBLICAN AGENDA FOR WISCONSIN

MILWAUKEE - County Executive Scott Walker made the following statement today in response to the Wisconsin State Senate Republican Agenda released today:

“The agenda put forth today by Senate Minority Leader Scott Fitzgerald is an exciting roadmap for moving Wisconsin forward.”

“By easing our heavy tax burden, making healthcare more affordable, creating a more friendly business climate, eliminating excessive and frivolous government spending, and making our schools the best and safest in the world, we can make Wisconsin an even better place to work, live and raise a family.”

“I want to thank the Republicans in the Senate for their vision. I am particularly excited about their proposal to end unfunded mandates on local governments.”
